Message from Superintendent Birks

Dear Allentown School District Learning Community,

We are absolutely thrilled to launch the Allentown School District's Allentown's Great EXPLORATIONS Summer Learning 2023 experience for all students in grades K-12!

In partnership with community providers across the City of Allentown, the District has coordinated efforts to ensure that a variety of opportunities are available to ensure students and families are engaged in summer programs that offer exploration in academics, the arts, athletics, social-emotional learning, and college and career readiness. Activities are designed to be enriching, fun, and innovative! We are so excited by these collaborative efforts!

Program offerings across the District and City support the District's mission that *'Each and every student will graduate college and career ready by having their individual needs met through active engagement in a rigorous, safe and nurturing learning environment.'*

The Allentown School District's summer programs will take place from Monday through Thursday each week from June 26, 2023, through August 3, 2023. In observation of the Independence Day Holiday, classes will not be in session July 3, 2023 and July 4, 2023.

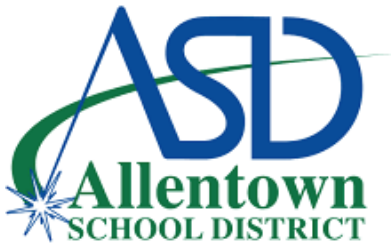

Only students currently enrolled in the Allentown School District are eligible to participate in school-offered summer programs. Students will have access to extended learning in core academic subjects including math, literacy, science, and technology.

Schools have also designed themed programs that offer enrichment activities that may include art, music, STEAM, mindfulness, gardening, dance, cooking, physical education, and field trips. These experiences are designed in partnership with community organizations across the City of Allentown. In addition, the District will assist in communicating and supporting community-based summer program opportunities available for students to ensure families are aware of and have access to various choices.

Families interested in having their student participate in school-based programs should contact their child's school to sign up or complete our summer interest form: <https://bit.ly/3nXbM35>

Sincerely,

Dr. Carol D. Birks
Superintendent

Notes: YMCA Summer Camps offer one of the most powerful learning environments and can be a place where a child's social education and independence takes place. They provide children with the opportunity to try new activities and when they succeed—they build self-esteem and confidence. Children also build on their teamwork and problem-solving skills by being part of a supportive community and partaking in activities together. Although still structured, summer camps are more relaxed than the school routine and offer time and freedom for spontaneous play. The Y provides healthy eating, physical activity, fun in nature, arts and crafts, swimming, and much more!

Notes: PA CareerLink® Lehigh Valley has an extensive list of resources, services and programming available for both in-school and out-of-school youth. We can offer customized programs in concert with the strategic plan of the Allentown School District to include activities such as: Student/Parent Career Awareness Nights, student "spotlights" via podcasts or social media, summer employment initiatives/job fairs, programs for seniors who plan to enter the workforce after graduation, job and industry clubs, CareerLinking Academies, and workshops on high priority occupations, resume development, mock interviews, training opportunities, jobs, and more. PA

CareerLink® Lehigh Valley can also develop a summer program for ASD students to earn certifications and credentials through the Department of Labor SkillUP PA platform (over 6,000 courses available). We also operate a year-round, Student Representative Program—one student from every public high school in the Lehigh Valley is selected to partake in career readiness activities such as employer and college tours, LinkedIn workshops, resume creation, billboard campaigns, career kiosk committee meetings, and more. In addition, for students who meet eligibility criteria, PA CareerLink® Lehigh Valley has an In-School and Out-of-School program that focuses on providing participants with paid work experiences, training opportunities, etc.
